DEVELOPMENT APPLICATION ASSESSMENT REPORT

DA2020/0640

Responsible Officer:	Maxwell Duncan		
Land to be developed (Address):	Lot 1 DP 16029, 1 Grandview Drive NEWPORT NSW 2106		
Proposed Development:	Alterations and additions to a dwelling house		
Zoning:	E4 Environmental Living		
Development Permissible:	Yes		
Existing Use Rights:	No		
Consent Authority:	Northern Beaches Council		
Land and Environment Court Action:	No		
Owner:	Louisa Maragret Rochford		
	Matthew Francis James		
Applicant:	Matthew Francis James		

Application Lodged:	16/06/2020
Integrated Development:	No
Designated Development:	No
State Reporting Category:	Residential - Alterations and additions
Notified:	25/06/2020 to 09/07/2020
Advertised:	Not Advertised
Submissions Received:	0
Clause 4.6 Variation:	Nil
Recommendation:	Approval

Estimated Cost of Works:	\$ 404,370.00
--------------------------	---------------

PROPOSED DEVELOPMENT IN DETAIL

The proposal is for alterations and additions to the existing dwelling house including:

The works incorporate the following:

- Construction of a new carport;
- New driveway;
- Minor external alterations including new entry portico;
- Internal alterations;
- Decking to the rear and side of the dwelling house;
- Front Fence (1.6m High);
- Associated landscaping;
- Demolition works.

DA2020/0640 Page 1 of 26

AMENDED PLANS

Amended Plans were received by Council on 21 August 2020 to address concerns relating to built form non-compliance and fence height. Following this, the applicant provided additional information to address concerns raised on 21 August 2020. Amendments to the proposal included increased physical separations between the front boundary and carport, reduction to front fence height and increased vegetation within the front setback area.

The amendments proposed are minor in respect to the original plans lodged with Council, and do not result in a greater environmental impact. As such, the amended application was not re-notified to neighbouring properties. This is in accordance with Northern Beaches Council Community Participation Plan.

ASSESSMENT INTRODUCTION

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared (the subject of this report) taking into account all relevant provisions of the Environmental Planning and Assessment Act 1979, and the associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon the subject site and adjoining, surrounding and nearby properties;
- Notification to adjoining and surrounding properties, advertisement (where required) and referral
 to relevant internal and external bodies in accordance with the Act, Regulations and relevant
 Development Control Plan;
- A review and consideration of all submissions made by the public and community interest groups in relation to the application;
- A review and consideration of all documentation provided with the application (up to the time of determination);
- A review and consideration of all referral comments provided by the relevant Council Officers, State Government Authorities/Agencies and Federal Government Authorities/Agencies on the proposal.

SUMMARY OF ASSESSMENT ISSUES

Pittwater 21 Development Control Plan - D10.7 Front building line (excluding Newport Commercial Centre)

Pittwater 21 Development Control Plan - D10.8 Side and rear building line (excluding Newport Commercial Centre)

Pittwater 21 Development Control Plan - D10.13 Landscaped Area - Environmentally Sensitive Land

Pittwater 21 Development Control Plan - D10.14 Fences - General

SITE DESCRIPTION

Property Description:	Lot 1 DP 16029 , 1 Grandview Drive NEWPORT NSW 2106
Detailed Site Description:	The subject site consists of one (1) allotment located on the southern side of Grandview Drive.
	The site is irregular in shape with a frontage of 38.925m along Grandview Drive, with a secondary frontage to

DA2020/0640 Page 2 of 26

Seaview Avenue. The site has a surveyed area of 487.1m².

The site is located within the E4 Envrionmental Living zone and accommodates a dwelling house.

The land has a gradual fall from the west to the east, with a cross fall towards the north east.

Detailed Description of Adjoining/Surrounding Development

Adjoining and surrounding development is characterised by resiential developmeny typically single and two storey dwelling houses.

SITE HISTORY

Prelodgement Meeting No. 2019/0267

The applicant attended a meeting with Council on 12 December 2019 to discuss the preliminary concept proposal for the alterations and additions to the existing dwelling house.

The primary issues raised in the meeting included parking, decking and setbacks.

The design proposed in this current development application scheme is consistent with that proposed in the prelodgement meeting.

ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979, are:

Section 4.15 Matters for	Comments
Consideration'	

DA2020/0640 Page 3 of 26

Section 4.15 Matters for Consideration'	Comments	
Section 4.15 (1) (a)(i) – Provisions of any environmental planning instrument	See discussion on "Environmental Planning Instruments" in this report.	
Section 4.15 (1) (a)(ii) – Provisions of any draft environmental planning instrument	Draft State Environmental Planning Policy (Remediation of Land) seeks to replace the existing SEPP No. 55 (Remediation of Land). Public consultation on the draft policy was completed on 13 April 2018. The subject site has been used for residential purposes for an extended period of time. The proposed development retains the residential use of the site, and is not considered a contamination risk.	
Section 4.15 (1) (a)(iii) – Provisions of any development control plan	Pittwater 21 Development Control Plan applies to this proposal.	
Section 4.15 (1) (a)(iiia) – Provisions of any planning agreement	None applicable.	
Section 4.15 (1) (a)(iv) – Provisions of the Environmental Planning and Assessment Regulation 2000 (EP&A Regulation 2000)	<u>Division 8A</u> of the EP&A Regulation 2000 requires the consent authority to consider "Prescribed conditions" of development consent. These matters have been addressed via a condition of consent.	
	Clause 50(1A) of the EP&A Regulation 2000 requires the submission of a design verification certificate from the building designer at lodgement of the development application. This clause is not relevant to this application.	
	Clauses 54 and 109 of the EP&A Regulation 2000 allow Council to request additional information. No additional information was requested in this case.	
	Clause 92 of the EP&A Regulation 2000 requires the consent authority to consider AS 2601 - 1991: The Demolition of Structures. This clause is not relevant to this application.	
	Clauses 93 and/or 94 of the EP&A Regulation 2000 requires the consent authority to consider the upgrading of a building (including fire safety upgrade of development). This clause is not relevant to this application.	
	Clause 98 of the EP&A Regulation 2000 requires the consent authority to consider insurance requirements under the Home Building Act 1989. This clause is not relevant to this application.	
	Clause 98 of the EP&A Regulation 2000 requires the consent authority to consider the provisions of the Building Code of Australia (BCA). This matter has been addressed via a condition of consent.	
	Clause 143A of the EP&A Regulation 2000 requires the submission of a design verification certificate from the building

Section 4.15 Matters for Consideration'	Comments		
	designer prior to the issue of a Construction Certificate. This clause is not relevant to this application.		
Section 4.15 (1) (b) – the likely impacts of the development, including environmental impacts on the natural and built environment and social and economic impacts in	(i) Environmental Impact The environmental impacts of the proposed development on the natural and built environment are addressed under the Pittwater 21 Development Control Plan section in this report.		
the locality	(ii) Social Impact The proposed development will not have a detrimental social impact in the locality considering the character of the proposal.		
	(iii) Economic Impact The proposed development will not have a detrimental economic impact on the locality considering the nature of the existing and proposed land use.		
Section 4.15 (1) (c) – the suitability of the site for the development	The site is considered suitable for the proposed development.		
Section 4.15 (1) (d) – any submissions made in accordance with the EPA Act or EPA Regs	See discussion on "Notification & Submissions Received" in this report.		
Section 4.15 (1) (e) – the public interest	No matters have arisen in this assessment that would justify the refusal of the application in the public interest.		

EXISTING USE RIGHTS

Existing Use Rights are not applicable to this application.

BUSHFIRE PRONE LAND

The site is not classified as bush fire prone land.

NOTIFICATION & SUBMISSIONS RECEIVED

The subject development application has been publicly exhibited from 25/06/2020 to 09/07/2020 in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2000 and the relevant Development Control Plan.

As a result of the public exhibition of the application Council received no submissions.

REFERRALS

Internal Referral Body	Comments
NECC (Development Engineering)	No Development Engineering objection subject to conditions

External Referral Body	Comments
,	The proposal was referred to Ausgrid who provided a response stating that the proposal is acceptable subject to compliance with the

DA2020/0640 Page 5 of 26

External Referral Body	Comments
	relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice. These recommendations will be included as a condition of consent.

ENVIRONMENTAL PLANNING INSTRUMENTS (EPIs)*

All, Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the merit assessment of this application.

In this regard, whilst all provisions of each Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the assessment, many provisions contained within the document are not relevant or are enacting, definitions and operational provisions which the proposal is considered to be acceptable against.

As such, an assessment is provided against the controls relevant to the merit consideration of the application hereunder.

State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans (SREPs)

SEPP 55 - Remediation of Land

Clause 7 (1) (a) of SEPP 55 requires the Consent Authority to consider whether land is contaminated. Council records indicate that the subject site has been used for residential purposes for a significant period of time with no prior land uses. In this regard it is considered that the site poses no risk of contamination and therefore, no further consideration is required under Clause 7 (1) (b) and (c) of SEPP 55 and the land is considered to be suitable for the residential land use.

SEPP (Building Sustainability Index: BASIX) 2004

A BASIX certificate has been submitted with the application (see Certificate No. A377711 dated 5 June 2020).

A condition has been included in the recommendation of this report requiring compliance with the commitments indicated in the BASIX Certificate.

SEPP (Infrastructure) 2007

Ausgrid

Clause 45 of the SEPP requires the Consent Authority to consider any development application (or an application for modification of consent) for any development carried out:

- within or immediately adjacent to an easement for electricity purposes (whether or not the electricity infrastructure exists).
- immediately adjacent to an electricity substation.
- within 5.0m of an overhead power line.
- includes installation of a swimming pool any part of which is: within 30m of a structure supporting an overhead electricity transmission line and/or within 5.0m of an overhead electricity power line.

DA2020/0640 Page 6 of 26

Comment:

The proposal was referred to Ausgrid. No response has been received within the 21 day statutory period and therefore, it is assumed that no objections are raised and no conditions are recommended.

Pittwater Local Environmental Plan 2014

Is the development permissible?	Yes	
After consideration of the merits of the proposal, is the development consistent with:		
aims of the LEP?	Yes	
zone objectives of the LEP?	Yes	

Principal Development Standards

Standard	Requirement	Proposed	% Variation	Complies
Height of Buildings:	8.50m	7.1m (Dwelling) 5.6m (Carport)	-	Yes

Compliance Assessment

Clause	Compliance with Requirements
1.9A Suspension of covenants, agreements and instruments	Yes
4.3 Height of buildings	Yes
5.10 Heritage conservation	Yes
7.1 Acid sulfate soils	Yes
7.2 Earthworks	Yes
7.10 Essential services	Yes

Pittwater 21 Development Control Plan

Built Form Controls

Built Form Control	Requirement	Proposed	% Variation*	Complies
Front building line	6.5m	0.5m - Carport 3.95m - Dwelling	92%	No
Rear building line	6.5m	1.2m	81%	No
Side building line	2.5m	1m - Carport	60%	No
	1m	1m - Deck	-	Yes
Building envelope	3.5m	Within envelope	-	Yes
	3.5m	Within envelope	-	Yes
Landscaped area	60% (292.26m ²)	41.6% (203m ²)	30.7%	No

^{*}Note: The percentage variation is calculated on the *overall* numerical variation (ie: for Landscaped area - Divide the proposed area by the numerical requirement then multiply the proposed area by 100 to equal X, then 100 minus X will equal the percentage variation. Example: 38/40 x 100 = 95 then 100 - 95 = 5% variation)

D10.16 Construction, Retaining walls, terracing and undercroft areas	Yes	Yes
D10.18 Scenic Protection Category One Areas	Yes	Yes

Detailed Assessment

D10.7 Front building line (excluding Newport Commercial Centre)

Clause D10.7 of the P21DCP requires development (other than driveways, fences and retaining walls) to be setback at least 6.5m from the front boundary or the established building line, whichever is greater.

This assessment will consider 6.5m as the minimum required front building line. The proposed carport is setback 0.5m from the northern front boundary, whilst the proposed decking is 3.95m from the northern front boundary which fails to comply with the 6.5m requirement.

With regard to the consideration of a variation, the proposed development is assessed against the underlying outcomes of the control as follows:

Achieve the desired future character of the Locality.

Comment:

The proposed development is consistent with the desired character statement of the Newport locality.

Equitable preservation of views and vistas to and/or from public/private places.

Comment:

The proposed carport is sited well below the existing dwelling and will not obscure existing view corridors.

• The amenity of residential development adjoining a main road is maintained.

Comment:

The site does not adjoin a main road and as such, this objective is not of relevance.

Vegetation is retained and enhanced to visually reduce the built form.

Comment:

The proposed development is constructed over an existing hardstand area and does not necessitate the removal of any significant vegetation. The existing landscaping treatments on site are sufficient and

DA2020/0640 Page 9 of 26

ensure the site is not dominated by the built form.

• Vehicle manoeuvring in a forward direction is facilitated.

Comment:

The proposed carport will allow for vehicles to enter and exit the site in a forward direction.

• To enhance the existing streetscapes and promote a scale and density that is in keeping with the height of the natural environment.

Comment:

Despite the variation to the front setback requirement, the proposal is keeping within the streetscape, given adjacent properties along Grandview Drive are characterised by similar structures within the front setback area. Furthermore, the height of the carport is sited well below the established tree canopy.

• To encourage attractive street frontages and improve pedestrian amenity.

Comment:

Having regard to the matters stipulated above, the proposal will not adversely impact the street frontage.

• To ensure new development responds to, reinforces and sensitively relates to the spatial characteristics of the existing urban environment.

Comment:

As noted earlier within this report, the proposal responds to established development within the locality.

Having regard to the above assessment, it is concluded that the applicable outcomes of the control have been achieved. Therefore, the application is supported on merit.

D10.8 Side and rear building line (excluding Newport Commercial Centre)

Description of non-compliance

The control requires structures be setback a minimum 6.5m from the rear boundary.

The proposed decking to the rear of the house is setback 1.2m from the rear boundary, representing a variation of 81% (5.3m).

Further, the control requires structures be setback a minimum of 2.5m from the side boundary.

The proposed carport is sited 1m at its closest point to the southern side boundaries, therefore representing a variation of 60% (1.5m)

Merit consideration

DA2020/0640 Page 10 of 26

With regard to the consideration for a variation, the development is considered against the underlying objectives of the Control as follows:

To achieve the desired future character of the Locality.

Comment:

The proposed development is centrally sited and is well articulated such that the dominance of the built form is reduced. The development remains within the maximum allowable building height, and it is also noted no significant vegetation is required to be removed to facilitate the works. In turn, the built form will remain sufficiently screened as presented to the public domain and surrounding properties. The proposal is therefore considered the achieve the desired future character of the locality.

• The bulk and scale of the built form is minimised.

Comment:

The inclusion of varying materials and setbacks allows for the bulk and scale of the built form to be minimised.

• Equitable preservation of views and vistas to and/or from public/private places.

Comment:

The proposed development will not result in any unreasonable view loss to and from public and private open spaces.

• To encourage view sharing through complimentary siting of buildings, responsive design and well-positioned landscaping.

Comment:

The proposal is considered to achieve a reasonable level of view sharing as a result of the complimentary siting of the built form, in conjunction with its site-specific design.

• To ensure a reasonable level of privacy, amenity and solar access is provided within the development site and maintained to residential properties.

Comment:

The proposed development will not unreasonably impact upon privacy. the proposal is considered to provide reasonable amenity for the dwelling occupants and those of adjoining and surrounding properties as a result of adequate building separation, site orientation and aspect and landscape treatment. Further, the application is accompanied by Certified Shadow Diagrams denote compliance with the solar access requirements prescribed within Clause C1.4 of P21DCP.

• Substantial landscaping, a mature tree canopy and an attractive streetscape.

DA2020/0640 Page 11 of 26

Comment:

The proposed development does not require the removal of any significant vegetation or tree canopy.

Flexibility in the siting of buildings and access.

Comment:

The development has been sited appropriately in accordance with the site constraints and the surrounding residential context, ensuring reasonable amenity can be maintained for the dwelling occupants and those of adjoining and surrounding properties. Access to the site will remain relatively unaltered from existing with two (2) on site parking spaces retained.

Vegetation is retained and enhanced to visually reduce the built form.

Comment:

As above, the proposed development does not require the removal of any significant vegetation or tree canopy. In turn, the built form will remain significantly screened from the existing provision of vegetation.

• To ensure a landscaped buffer between commercial and residential zones is established.

Comment:

Not applicable, given the subject site does not adjoin and commercially zoned property.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of PLEP 2014 / P21DCP and the objectives specified in s1.3 of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

D10.13 Landscaped Area - Environmentally Sensitive Land

Description of non-compliance

The control requires a minimum of 60% (292.26m²) of the site area to be landscaped.

The application proposes a total landscaped area of 41.6% (203m²), representing a variation of 30.7%.

Merit consideration

The outcomes are achieved in the following ways:

Achieve the desired future character of the Locality.

Comment

The desired future character of the Newport locality is maintained.

DA2020/0640 Page 12 of 26

The bulk and scale of the built form is minimised.

Comment

The bulk and scale of the structure is minimised as the proposal complies with the height and building envelope controls. The built form is further softened through proposed screen and boundary planting.

A reasonable level of amenity and solar access is provided and maintained.

Comment

A reasonable level of privacy, amenity and solar access is maintained by the residents of the subject site and the adjoining dwellings.

• Vegetation is retained and enhanced to visually reduce the built form.

Comment

No significant vegetation is proposed for removal as part of this application.

Conservation of natural vegetation and biodiversity.

Comment

No native vegetation or wildlife species will unreasonably impacted by the proposed works.

• Stormwater runoff is reduced, preventing soil erosion and siltation of natural drainage channels.

Comment

The removal of the second driveway will aid in the reduction of stormwater runoff.

To preserve and enhance the rural and bushland character of the area.

Comment

Consistency with the relevant built form controls and the retention of vegetation on the site will ensure the character of the area is maintained. In addition, the proposed works which result in the loss of landscaping are located within the rear yard and will not be seen from public place.

• Soft surface is maximised to provide for infiltration of water to the water table, minimise run-off and assist with stormwater management.

Comment

Soft surfaces and porous materials have been utilised where possible to minimise run-off and assist with stormwater management.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of P21 DCP and the objectives specified in s1.3 of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported in this particular circumstance.

D10.14 Fences - General

Description of non-compliance

The proposal seeks approval for a 1.6m high masonry fence which exceeds the maximum 1.0m requirement of the control. However, within the front building setback, provided the outcomes of this

DA2020/0640 Page 13 of 26

clause are achieved, fencing to a maximum height of 1.8m may be considered if a site is located on a main road with high traffic noise; is screened by landscaping and articulated to provide visual interest.

Merit consideration

The outcomes are achieved in the following ways:

To achieve the desired future character of the Locality.

Comment:

While it is not desirable for the average allotment to proposes a 1.6m height front boundary fence. The constraints of the site including being a corner allotment and limited private open space results in this site being justified outlier in the area. The other aspects of the development allow for the overall intention of the desired future character of the Newport Locality be met. Therefore the fence is acceptable.

• An open streetscape that allows casual surveillance of the street.

Comment:

The proposed fence will still allow for passive surveillance of the street from the living areas of the dwelling house.

• Fences, where provided, are suitably screened from view from a public place.

Comment:

The the proposed colours and materials and the existing and proposed planting behind the fence will help the fence to blend into the landscaped environment. The height of the fence will allow for more of the landscaping behind the fence to be visible, distracting from the fence.

 To ensure fences compliment and conserve the visual character of the street and neighbourhood.

Comment:

As noted above, while fences 1.6m high are not a common theme, the fence in this situation is supported given it allow for greater amenity the subject site. It is also noted that the proposed fence does not extend the whole of the front boundary, allowing for visual relief across the site.

 To define the boundaries and edges between public and private land and between areas of different function.

Comment:

The proposal adequately defines the boundaries between between public and private land and between areas of different function.

• To contribute positively to the public domain.

DA2020/0640 Page 14 of 26

Comment:

The proposed fence is aesthetically appealing and will provide some privacy and security to the occupants of the site. The private open space is located at the rear of the site is only small, given the siting of the existing dwelling house. As such, the front yard is partly used for outdoor living, justifying the need for a higher fence with greater visual privacy from the street.

 To enhance safe sight distances and clear view of the street (including to and from driveways) for motorists and pedestrians.

Comment:

The proposed fence only takes up a part off the front setback. The proposed fence will still allow for a clear view of the street from nearby driveways.

To ensure heritage significance is protected and enhanced.

Comment:

The proposed fence is not in the vicinity of any heritage significant items or locations.

To ensure an open view to and from the waterway is maintained.

Comment:

The subject site is not located near any waterways and will not impede views to and from waterways.

• To ensure native vegetation is retained.

Comment:

The proposal will retain native vegetation on the site.

To ensure any fencing provides for the safe and unhindered travel of native animals.

Comment:

The design of the fence will not unreasonably endanger or hinder the travel of native animals.

As such, it is recommended that the proposal be supported on merit, despite the technical noncompliance with the outcomes of the control.

THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES

The proposal will not significantly affect threatened species, populations or ecological communities, or their habitats.

CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

POLICY CONTROLS

Northern Beaches Section 7.12 Contributions Plan 2019

DA2020/0640 Page 15 of 26

The proposal is subject to the application of Northern Beaches Section 7.12 Contributions Plan 2019.

A monetary contribution of \$4,044 is required for the provision of new and augmented public infrastructure. The contribution is calculated as 1% of the total development cost of \$404,370.

CONCLUSION

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2000;
- All relevant and draft Environmental Planning Instruments;
- Pittwater Local Environment Plan;
- Pittwater Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

RECOMMENDATION

THAT Council as the consent authority grant Development Consent to DA2020/0640 for Alterations and additions to a dwelling house on land at Lot 1 DP 16029, 1 Grandview Drive, NEWPORT, subject to the conditions printed below:

DEVELOPMENT CONSENT OPERATIONAL CONDITIONS

1. Approved Plans and Supporting Documentation

The development must be carried out in compliance (except as amended by any other condition of consent) with the following:

a) Approved Plans

DA2020/0640 Page 17 of 26

(NOTE: For a copy of the above referenced document/s, please see Application Tracking on Council's website www.northernbeaches.nsw.gov.au)

Reason: To ensure the work is carried out in accordance with the determination and the statutory requirements of other departments, authorities or bodies.

3. **Prescribed Conditions**

(i)

- (a) All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).
- (b) BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);
- (c) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
 - (i) showing the name, address and telephone number of the Principal Certifying Authority for the work, and
 - (ii) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
 - (iii) stating that unauthorised entry to the work site is prohibited.
 - Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.
- (d) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
 - in the case of work for which a principal contractor is required to be appointed:
 - A. the name and licence number of the principal contractor, and
 - B. the name of the insurer by which the work is insured under Part 6 of that Act,
 - (ii) in the case of work to be done by an owner-builder:
 - A. the name of the owner-builder, and
 - B. if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

- (e) Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:
 - (i) protect and support the adjoining premises from possible damage from the excavation, and
 - (ii) where necessary, underpin the adjoining premises to prevent any such damage.
 - (iii) must, at least 7 days before excavating below the level of the base of the

DA2020/0640 Page 18 of 26

footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.

(iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place.

Reason: Legislative requirement.

4. General Requirements

(a) Unless authorised by Council:
 Building construction and delivery of material hours are restricted to:

- 7.00 am to 5.00 pm inclusive Monday to Friday,
- 8.00 am to 1.00 pm inclusive on Saturday,
- No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

• 8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

- (b) Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.
- (c) At all times after the submission the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of a final Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.
- (d) Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.
- (e) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.
- (f) Prior to the release of the Construction Certificate, payment of the Long Service Levy is required. This payment can be made at Council or to the Long Services Payments Corporation. Payment is not required where the value of the works is less than \$25,000. The Long Service Levy is calculated on 0.35% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.
- (g) The applicant shall bear the cost of all works associated with the development that occurs on Council's property.

DA2020/0640 Page 19 of 26

- (h) No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.
- (i) Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.
- (j) No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.) or on the land to be developed shall be removed or damaged during construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.
- (k) Prior to the commencement of any development onsite for:
 - i) Building/s that are to be erected
 - ii) Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place
 - iii) Building/s that are to be demolished
 - iv) For any work/s that is to be carried out
 - v) For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.

- (I) A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.
- (m) The works must comply with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice.
- (n) Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.
 - (1) Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following;

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:

- (i) Swimming Pools Act 1992
- (ii) Swimming Pools Amendment Act 2009
- (iii) Swimming Pools Regulation 2008
- (iv) Australian Standard AS1926 Swimming Pool Safety
- (v) Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
- (vi) Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
- (2) A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area
- (3) Filter backwash waters shall be conveyed to the Sydney Water sewerage

DA2020/0640 Page 20 of 26

system in sewered areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system.

(4) Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

FEES / CHARGES / CONTRIBUTIONS

5. **Policy Controls**

Northern Beaches 7.12 Contributions Plan 2019

A monetary contribution of \$4,043.70 is payable to Northern Beaches Council for the provision of local infrastructure and services pursuant to section 7.12 of the Environmental Planning & Assessment Act 1979 and the Northern Beaches Section 7.12 Contributions Plan 2019. The monetary contribution is based on a development cost of \$404,370.00.

The monetary contribution is to be paid prior to the issue of the first Construction Certificate or Subdivision Certificate whichever occurs first, or prior to the issue of the Subdivision Certificate where no Construction Certificate is required. If the monetary contribution (total or in part) remains unpaid after the financial quarter that the development consent is issued, the amount unpaid (whether it be the full cash contribution or part thereof) will be adjusted on a quarterly basis in accordance with the applicable Consumer Price Index. If this situation applies, the cash contribution payable for this development will be the total unpaid monetary contribution as adjusted.

The proponent shall provide to the Certifying Authority written evidence (receipt/s) from Council that the total monetary contribution has been paid.

The Northern Beaches Section 7.12 Contributions Plan 2019 may be inspected at 725 Pittwater Rd, Dee Why and at Council's Customer Service Centres or alternatively, on Council's website at www.northernbeaches.nsw.gov.au

This fee must be paid prior to the issue of the Construction Certificate. Details demonstrating compliance are to be submitted to the Principal Certifying Authority.

Reason: To provide for contributions in accordance with the Contribution Plan to fund the provision of new or augmented local infrastructure and services.

6. Security Bond

A bond (determined from cost of works) of \$1,500 and an inspection fee in accordance with Council's Fees and Charges paid as security are required to ensure the rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoining the site as a result of construction or the transportation of materials and equipment to and from the development site.

An inspection fee in accordance with Council adopted fees and charges (at the time of payment) is payable for each kerb inspection as determined by Council (minimum (1) one inspection).

DA2020/0640 Page 21 of 26

All bonds and fees shall be deposited with Council prior to Construction Certificate or demolition work commencing, and details demonstrating payment are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

To process the inspection fee and bond payment a Bond Lodgement Form must be completed with the payments (a copy of the form is attached to this consent and alternatively a copy is located on Council's website at www.northernbeaches.nsw.gov.au).

Reason: To ensure adequate protection of Council's infrastructure.

CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION CERTIFICATE

7. Stormwater Disposal

The applicant is to demonstrate how stormwater from the new development within this consent is disposed of to an existing approved system or in accordance with Northern Beaches Council's PITTWATER DCP21. Details by an appropriately qualified and practicing Civil Engineer demonstrating that the existing approved stormwater system can accommodate the additional flows, or compliance with the Council's specification are to be submitted to the Certifying Authority for approval prior to the issue of the Construction Certificate.

Reason: To ensure appropriate provision for disposal and stormwater management arising from development.

8. Traffic Management and Control

The Applicant is to submit an application for Traffic Management Plan to Council for approval prior to issue of the Construction Certificate. The Traffic Management Plan shall be prepared to RMS standards by an appropriately certified person.

Reason: To ensure appropriate measures have been considered for site access, storage and the operation of the site during all phases of the construction process.

9. **Boundary Identification Survey**

A boundary identification survey, prepared by a Registered Surveyor, is to be prepared in respect of the subject site.

The plans submitted for the Construction Certificate are to accurately reflect the property boundaries as shown on the boundary identification survey, with setbacks between the property boundaries and the approved works consistent with those nominated on the Approved Plans of this consent.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to the issue of any Construction Certificate.

Reason: To ensure all approved works are constructed within the subject site and in a manner anticipated by the development consent.

10. Vehicle Driveway Gradients

The Applicant is to ensure driveway gradients within the private property are not to exceed a gradient of 1 in 4 (25%) with a transition gradient of 1 in 10 (10%) for 1.5 metres prior to a level parking facility. Access levels across the road reserve are to comply with the allocated vehicle profile detailed in this consent.

DA2020/0640 Page 22 of 26

Details demonstrating compliance are to be submitted to the Certifying Authority for approval prior to the issue of the Construction Certificate.

Reason: To ensure suitable vehicular access to private property.

11. Vehicle Crossings Application

The Applicant is to submit an application for driveway levels with Council in accordance with Section 138 of the Roads Act 1993. The fee associated with the assessment and approval of the application is to be in accordance with Council's Fee and Charges.

An approval is to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: To facilitate suitable vehicular access to private property.

12. External Finishes to Roof

The external finish to the roof shall have a medium to dark range (BCA classification M and D) in order to minimise solar reflections to neighbouring properties. Any roof with a metallic steel finish is not permitted.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: To ensure that excessive glare or reflectivity nuisance does not occur as a result of the development. (DACPLC03)

13. Carport Privacy Screen

The carport privacy screen shall be of fixed panels or louver style construction (with a maximum spacing of 20mm), in materials that complement the design of the approved development. Breezeblock is not to be used.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: In order to maintain privacy to the adjoining / nearby property.

CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

14. Road Reserve

The applicant shall ensure the public footways and roadways adjacent to the site are maintained in a safe condition at all times during the course of the work.

Reason: Public safety.

15. Removing, Handling and Disposing of Asbestos

Any asbestos material arising from the demolition process shall be removed and disposed of in accordance with the following requirements:

- Work Health and Safety Act;
- Work Health and Safety Regulation;
- o Code of Practice for the Safe Removal of Asbestos [NOHSC:2002 (1998)];
- Guide to the Control of Asbestos Hazards in Buildings and Structures [NOHSC: 3002 (1998);

DA2020/0640 Page 23 of 26

- Clause 42 of the Protection of the Environment Operations (Waste) Regulation 2005;
 and
- The demolition must be undertaken in accordance with Australian Standard AS2601 The Demolition of Structures.

Reason: For the protection of the environment and human health.

16. **Demolition Works - Asbestos**

Demolition works must be carried out in compliance with WorkCover Short Guide to Working with Asbestos Cement and Australian Standard AS 2601 2001 The Demolition of Structures.

The site must be provided with a sign containing the words DANGER ASBESTOS REMOVAL IN PROGRESS measuring not less than 400 mm x 300 mm and be erected in a prominent visible position on the site. The sign is to be erected prior to demolition work commencing and is to remain in place until such time as all asbestos cement has been removed from the site and disposed to a lawful waste disposal facility.

All asbestos laden waste, including flat, corrugated or profiled asbestos cement sheets must be disposed of at a lawful waste disposal facility. Upon completion of tipping operations the applicant must lodge to the Principal Certifying Authority, all receipts issued by the receiving tip as evidence of proper disposal.

Adjoining property owners are to be given at least seven (7) days' notice in writing of the intention to disturb and remove asbestos from the development site.

Reason: To ensure the long term health of workers on site and occupants of the building is not put at risk unnecessarily.

17. Survey Certificate

A survey certificate prepared by a Registered Surveyor at the following stages of construction:

- (a) Commencement of perimeter walls columns and or other structural elements to ensure the wall or structure, to boundary setbacks are in accordance with the approved details.
- (b) At ground level to ensure the finished floor levels are in accordance with the approved levels, prior to concrete slab being poured/flooring being laid.
- (c) At completion of the roof frame confirming the finished roof/ridge height is in accordance with levels indicated on the approved plans.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority.

Reason: To determine the height of buildings under construction comply with levels shown on approved plans.

18. Vehicle Crossings

The Applicant is to construct a splayed vehicle crossing 4.0 metres wide at the boundary and 60 at the kerb in accordance with Northern Beaches Council Drawing No A4-3330/6 and the driveway levels application approval. An Authorised Vehicle Crossing Contractor shall construct the vehicle crossing and associated works within the road reserve in plain concrete. All redundant laybacks and crossings are to be restored to footpath/grass. Prior to the pouring of concrete, the vehicle crossing is to be inspected by Council and a satisfactory "Vehicle Crossing Inspection" card issued.

DA2020/0640 Page 24 of 26

A copy of the vehicle crossing inspection form is to be submitted to the Principal Certifying Authority.

Reason: To facilitate suitable vehicular access to private property.

CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE OCCUPATION CERTIFICATE

19. Reinstatement of Kerb

The Applicant shall reinstate all redundant laybacks and vehicular crossings to conventional kerb and gutter, footpath or grassed verge as appropriate with all costs borne by the applicant.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of the final Occupation Certificate.

Reason: To facilitate the preservation of on street parking spaces.

20. Certification Elevated Parking Facility Work

The Applicant shall submit a Structural Engineers' certificate certifiying that the elevated parking facility was constructed in accordance within this development consent and the provisions of Australian/New Zealand Standard AS/NZS 2890.1:2004 parking facilities - Off-street car parking, in particular Section 2.4.5 Physical controls. Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of the final Occupation.

Reason: Compliance with this consent.

21. Retaining wall

The retaining wall works shall be certified as compliant with all relevant Australian Standards and Codes by a Structural Engineer. Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of any final Occupation Certificate.

Reason: Public and Private Safety

In signing this report, I declare that I do not have a Conflict of Interest.

Signed

Maxwell Duncan, Planner
