RE: DA2023/0720 0 Vista Avenue BALGOWLAH HEIGHTS NSW 2093

Dear Assessing Officer,

We are writing to express our continuing opposition to this revised application for lights at Bareena Tennis Club. The club has been growing over the years without the need for night time tennis. We are still concerned that night time tennis and its associated lighting will have a significant negative impact on our local amenity and quality of life inside our neighbouring homes. All our bedrooms overlook the the affected courts and this will have a significant impact on our quality of life every night.

We note that the new application wishes to have night time tennis 7 days a week, giving us no respite from the associated night time noise from players, cars and artificial light. As has been pointed out in David Simmons submission, many of the new analyses of expected impacts from the revised DA are purported to support the club, when in fact the results actually confirm the negative and unacceptable effects of this application.

Furthermore, we happily tolerate and accept the noise and increased traffic congestion during daylight hours of such a vibrant community club. But we feel it is very unfair to continue this late into the night, past daylight hours, in such a quiet residential area.

Please do not allow our quality to be reduced for such an unnecessary reason when night time tennis courts are readily available close by.

Kind Regards

Simon and Sarah Roberts
