RE: DA2024/1009 - 67 Pacific Parade DEE WHY NSW 2099

My main concerns i have a problem with are:

The Diagram and plans do not show a shade diagram? which should be included here in the plans. Please supply shade diagram.

Extremely concerned because of the extra height now of this building it will completely block all my light and sun cause shading all through my dining room making it colder in winter as well and damp in the garden taking any enjoyment out of my own apartment.
