I live local, close to the tennis courts. Our children have all had and our youngest continues to receive tennis lessons at Bareena. During winter there are limited ours available for lessons before and after school due to low light levels. I support more local amenity and places for the community to come together. I support the tennis court lights so that I can play tennis with my kids and friends after school/work. It's a very healthy family and community initiative. It is in keeping with the original intent of the club and the use of crown land. It offers greater utility to locals.
