**RE: DA2024/1303 - 11 / 0 Melwood Avenue FORESTVILLE NSW 2087**

Thank you for the opportunity to submit. It may be my lack of plan understanding, however I could not see same sex toilet facilities on the plans. In the day of child rapists it is imperative that ANY space catering to families and women offer appropriate, same sex toilets to keep our children and women safe. Personally, unless this is part of the plans, then I would not visit this location, nor would I deem it 'safe' for children. We do not want to enable the same issues as we have in many public park toilets, and make it 'the norm' to see men walking out of the same toilets that little girls and women are expected to use. I have no doubt you understand the risk when these things are seen as 'normal'. They are not.

Thank you.
