RE: PEX2025/0001 - 13 Wilga Street INGLESIDE NSW 2101

Submission in Support of Ingleside Development

To Whom It May Concern,

I am writing with the hope that you will understand just how much this development would mean for families like mine.

Right now, my partner and I live with my parents in Elanora, sharing a single bedroom with our two young children. It is incredibly hard, both for us and for the kids, to live in such cramped conditions. We are doing our best, but it is not easy to raise a young family this way.

We rely on my parents every day - they help us with school pick-ups and care for the children while we work. I work at the local childcare centre, giving back to the same community we desperately want to stay a part of. But despite working hard, we have nowhere of our own to live.

Every time we search for an apartment to rent in Elanora, there is simply nothing available. The housing shortage is real, and it is forcing families like ours into situations that are stressful and unsustainable. All we want is a chance to live close to our support network, in a place that is safe and stable for our children.

The Ingleside development represents hope for us. It means the possibility of finally moving out of my parents' house, of giving our children their own rooms, and of having a future in the community we already belong to. Without it, families like mine will continue to struggle, stuck in overcrowded homes with no options.

I urge you from the bottom of my heart to approve this development. Please think of the young families who are trying so hard to build a life here, but who simply have no doors to open. This development could change that.
