RE: DA2022/1799 - 11 Coutts Crescent COLLAROY NSW 2097

I am concerned that the proposed covered double carport and extended driveway will negatively impact the existing streetscape. At present we see open space and greenery. Whereas,

the proposed covered double carport will be the focal point emphasising and showcasing the cars, concrete and colorbond roof due to its bulk and height as well as its closeness to the road.

May I suggest to reduce its width and length without the colorbond roof.
