<b>Do you support the proposed changes allowing trees within 3 metres of a building or structure to be removed without requiring approval?</b>	Yes
--	-----

#### **Comments.**

I used to live in Pittwater and had asked for permission to remove a tree which was denied. Subsequently this tree caused damage.

**Do you support the proposed changes to include a further 9 tree species to the list of trees that can be removed without approval? (see full list in library)**

Yes

#### **Comments**

I live on Narrabeen Peninsula for last 5 years and my view of the Lake is being obliterated by the oaks (casuarinas). Do you know these cause allergies for up to 9 months of the year and are banned in places like Florida. They drop pollen which can make eyes water badly

**Do you support the proposed changes to increase the minimum height of a tree that requires approval to be removed, from 5 metres to 6 metres?**

No

#### **comments**

**Any other comments on the proposed changes?**

We see the devastation caused by bushfires and houses being burnt down through embers in leaves in gutters. We are not a bare plane and go to your library and look at photos around Narrabeen / Warriewood 100 years ago. Not half as many trees as today. We have enough and let's get rid of those that endanger us
