RE: PEX2025/0001 - 13 Wilga Street INGLESIDE NSW 2101

I am concerned about the very likely situation of a bushfire and the number of cars which would be trying to leave the area all at the same time. It is already so congested to get up or down powderworks road in the morning and evening. Further to this, what allowance has been made to get residents in and out for medical or any other emergency?

Elanora school is overcrowded and the exits from the school are already unsafe for the existing children without the addition of even more children from this development.

We need buses, schools, health care and road upgrades done BEFORE any developments can be considered.
