**Re: PROPOSED SEWERAGE PUMPING STATION
GLENAEON RETIREMENT VILLAGE, LOT 100 DP 1114910 / GLENAEON AVENUE,
BELROSE NSW
BUSHFIRE ASSESSMENT STATEMENT**

Dear Sue,

We thank you for engaging us to undertake this assessment for you.

The development proposal relates to the construction of a new sewerage pumping station within an existing allotment known as Glenaeon Avenue, Belrose (Lot 100 DP 1114910). The subject site is currently occupied by the Glenaeon Retirement Village.

Properties considered to be affected by possible bushfire impact are determined from local Bushfire Prone Land Map's as prepared by Council and or the Rural Fire Service. All property development within affected areas is subject to the relevant specifications and requirements detailed in the document '*Planning for Bush Fire Protection - 2019*' (PBP).

The most appropriate method of determining the site bushfire hazard under the terms of PBP is to consider the site in a singular form.

Bushfire prone areas are defined as those areas;

- *containing or within 100m of Category 1 Vegetation; or*
- *containing or within 30m of Category 2 or 3 Vegetation.*

Northern Beaches Council's Bushfire Prone Land Map identifies the subject property as containing Category 1 Vegetation and its associated buffer zone therefore the subject site is considered 'bushfire prone'.

Seniors Living is a listed Special Fire Protection Purpose (SFPP) under section 100b (6) of the *Rural Fires Act 1997*. Typically if a proposal involves a listed SFPP development on bushfire prone land it is classified as integrated development under section 4.46 of the *Environmental Planning and Assessment Act 1979*.

Section 45 of the *Rural Fires Regulations 2013* lists development that is excluded from the operation of s100B of the *Rural Fires Act 1997* and includes:

(m) construction of a class 10a building that is at least 6 metres from a dwelling,

As the proposal relates to the construction of a sewerage pumping station (class 10a structure non-habitable building) that is located > 6 metres from any building (dwelling or otherwise) it is excluded from the operation of section 100b (6) of the *Rural Fires Act 1997*.

All property development within affected areas is subject to the relevant specifications and requirements detailed in the document '*Planning for Bush Fire Protection - 2019*' (PBP).

PBP addresses minor development in SFPP facilities in section 6.5 which include:

- *Class 10a structures located further than 6m from a habitable building*

The development types included in section 6.5, inclusive of that listed above, do not have any influence on potential bush fire impacts and the bush fire protection of the building. For this reason, the NSW RFS does not consider that a BFSa is necessary for the development types listed above.

When considering the application of construction measures to the proposed sewerage pumping station section 8.3.2 *Class 10 structures* of PBP does not apply any bushfire protection measures for Class 10a buildings located more than 6 metres from a dwelling on bushfire prone land.

Therefore, as the sewerage pumping station is >6 metres from any building there is no construction requirements in accordance with PBP.

In consideration of the nature of the proposal and site specific bushfire risk assessment it is our opinion that a reasonable level of bushfire protection is provided.

We are therefore in support of the development.

Should you have any questions please do not hesitate to contact the undersigned.

BUSHFIRE RISK ASSESSMENT CERTIFICATE UNDER PART 4 DIVISION 4.3 SECTION 4.14 OF THE EP&A ACT 1979 NO 203

PROPERTY ADDRESS:	Glenaeon Avenue, Belrose
DESCRIPTION OF PROPOSAL:	Sewerage Pumping Station
PLAN REFERENCE: (relied upon in report preparation)	Site plan prepared by SCP, Revision D, Date 04/04/2022
BAL RATING:	N/A
BUSHFIRE ASSESSMENT REPORT REFERENCE:	220295
REPORT DATE	19 th April 2022
CERTIFICATION NO/ACCREDITED SCHEME	BPAD46966

I Andrew Muirhead of Building Code and Bushfire Hazard Solutions Pty Ltd hereby certify, in accordance with Part 4 Division 4.3 Section 4.14 of the *Environmental Planning and Assessment Act 1979 No 203*:

1. That I am a person recognised by the *NSW Rural Fire Service* as a qualified consultant in bushfire risk assessment; and
2. That subject to the recommendations contained in the Bushfire Risk Assessment Report the proposed development conforms specifications and requirements of the documents entitled *Planning for Bush Fire Protection* prepared by the NSW Rural Fire Service in co-operation with the Department of Planning and any other documents as prescribed by Part 4 Division 4.3 Section 4.14 of the *Environmental Planning and Assessment Act 1979 No 203*.

I am aware that the Bushfire Assessment Report, prepared for the above mentioned site is to be submitted in support of a development application for this site and will be relied upon by Council as the basis for ensuring that the bushfire risk management aspects of the proposed development have been addressed in accordance with *Planning for Bush Fire Protection 2019*.

Signature:  Date: 19th April 2022
