Are any trees impacted upon by the proposed development? Yes No		
SECTION 1 – CODE ASSESSMENT REPORT		
ENVIRONMENTAL PLANNING INSTRUMENTS		
WLEP 2000		
Locality: C1 Middle Harbour Suburbs		
Development Definition: Housing Ancillary Development to Housing Other		

Draft WLEP 2009 Permissible or Prohibited Land use: Permissible

Category of Development: Category 1 Category 2 Category 3

DESIRED FUTURE CHARACTER

The Middle Harbour Suburbs locality will remain characterised by detached-style housing in landscaped settings interspersed by a range of complementary and compatible uses. The land adjacent to Middle Harbour and occupied by the Mosman Rowing Club will be retained for low-scale recreational use sympathetic to its natural setting. The land occupied by the Killarney Heights Tennis Centre at Lot 841 DP 210006 and land occupied by the Killarney Heights Swim Centre at Lot 854 DP 210006 on Tralee Avenue and the land occupied by Belrose Bowling Club at Lot 2 DP 851739 on Forest Way, will continue to be used only as recreation facilities.

The south-west section of the Killarney Heights High School grounds contains bushland and rock outcrops: this area may be developed for housing. Development in this section will recognise the

bushland outlook, views and privacy enjoyed from residences adjoining the northern and western boundaries of the site and ensure development reasonably maintains these qualities. The retention of existing landscaping is encouraged, where practical.

Future development will maintain the visual pattern and predominant scale of existing detached style housing in the locality. The streets will be characterised by landscaped front gardens and consistent front building setbacks. Unless exemptions are made to the density standard in this locality statement, any subdivision of land is to be consistent with the predominant pattern, size and configuration of existing allotments in the locality.

The relationship of the locality to the surrounding bushland will be reinforced by protecting and enhancing the spread of indigenous tree canopy and preserving the natural landscape, including rock outcrops, remnant bushland and natural watercourses. The use of materials that blend with the colours and textures of the natural landscape will be encouraged.

Development on hillsides or in the vicinity of ridgetops must integrate with the natural landscape and topography. Development on land which adjoins Middle Harbour shall have regard to the principles contained in Schedule 14.

The locality will continue to be served by the existing local retail centres in the areas shown on the map. Future development in these centres will be in accordance with the general principles of development control listed in clause 39.

Future development of the environmentally sensitive land shown cross-hatched on the map will be limited to one dwelling per allotment. Such dwelling will be constructed having regard to the constraints, potential instability, visual sensitivity and impact on the water quality of Middle Harbour.

Category 1 Development with no variations to BFC's (Section 2 Assessment not required)
Is the development considered to be consistent with the Locality's Desired Future Character Statement?
Yes No

John Essenstam, Development Assessment Officer

SECTION 4 – APPLICATION DETERMINATION

Conclusion:

The proposal has been considered against the relevant matters for consideration under Section 79C of the EP&A Act 1979. This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to any conditions contained within the Recommendation.

Recomr	mendation:
That Co	uncil as the consent authority
▽	GRANT DEVELOPMENT CONSENT to the development application subject to:
	(a) the conditions detailed within the associated notice of determination; and(b) the consent lapsing within three (3) years from operation
	GRANT DEFERRED COMMENCEMENT CONSENT to the development application subject to:
	 (a) the conditions detailed within the associated notice of determination; (b) limit the deferred commencement condition time frame to 3 years; (c) one the deferred commencement matter have been satisfactorily addressed issue an operational consent subject to the time frames detailed within part (d); and (d) the consent lapsing within three (3) from operation
□ F	REFUSE development consent to the development application subject to: (a) the reasons detailed within the associated notice of determination.
	vare of Warringah's Code of Conduct and, in signing this report, declare that I do not have a of Interest"
