**RE: DA2019/1340 - 100 / 0 Meatworks Avenue OXFORD FALLS NSW 2100**

What has already been built on the site is not safe for either the residents or the Oxford Falls grammar School due to the heavy vehicle traffic the industrial units attract. By increasing the amount of industrial units is inviting far more additional traffic. The traffic is likely to attempt travel along Oxford Falls road which has no verge, is tight bends and steep at the eastern end, is already a rat run, but also has a 3 tonne limit (which is consistently ignored), has a 50kmh speed zone (also regularly ignored) and is supposed to be a local road. All heavy vehicle traffic has no choice but to pass the large school on Meatworks Avenue drastically reducing the safety of all children who attend the school. Please do not allow any further construction at the former recycling plant.
