RE: DA2019/1340 - 100 / 0 Meatworks Avenue OXFORD FALLS NSW 2100

I would like to register my objection to this application. The size of this application is not in keeping with the area. Most worryingly is the insufficient road conditions leading up to this location. The road past oxford Falls grammar school is not able to carry increased traffic. The road is too small and the risk to students too big. The increase in truck activity during construction is too dangerous for families attending the school. The traffic once completed will also cause issues for the existing community.

The area already has numerous facilities like this one not far and another like this application is just not required.

Please consider the students who attend the school. We want them to be safe from construction trucks and an overload of cars driving down what is already a small road.
