RE: PEX2025/0001 - 13 Wilga Street INGLESIDE NSW 2101

I am in support of this development, I am hoping to buy a home here for my family., even if it's a small apartment. I currently reside with family in the area, but I need to move out soon, and my elderly mother needs my support so I hope I can continue living nearby to her. This development is smaller than the last one proposed so I think it should be good for the area to progress with it. I know so many others wanting to get a home and please Council support this development.
Thank you.
