Subject: DA 2023/0720 Lot 1431 and Lot 1432 DP 752038

Dear Planner

I wish to object to this development application on two main grounds

1. Lights at the proposed time

Do not believe the proposal will be like it says. There will be too much light produced and this will shine into homes.

2. Noise

When there are sporting activities there is always noise as the sporting people get excited while playing sport. While the proposers of this say they will try/issue commands to people not to create noise, this will not stop them. Very hard to police. There are always people who believe that the regulations do not apply to them. Too late to do anything about it after giving approval.
