Re Lighting for Bareena Park Tennis Club

As I long standing member of this great Club I support the addition of court lighting. It will mean that more hours of tennis is available and will attract more members to the Club. Tennis is a great social sport for all ages. Health experts claim that tennis players live longer (+ 10 years). I myself play 2-3 x every week and hope to play for many years to come. The addition of lights will provide more opportunities to play.
