RE: Mod2019/0024 - 43 Booralie Road TERREY HILLS NSW 2084

To whom it may concern:

I live in 37 Booralie Rd Terrey Hills, which is right next door the the new service station. I object to the height of the canopy being raised to 6 meters from 5.5meters. This is 500mm to 600mm higher than planned. If this is approved I will see much more of the canopy from my property. As the canopy is higher and the lights are mounted in the canopy more light will be coming into my property. As I have bedrooms facing the new site it will impact my bedrooms especially at night time. The canopy will be much higher than the canopy that as previously there. I ask you to refuse this submission to raise the canopy as it will impact myself and my family. I don't understand why they would modify this height after it was already agreed that 5.5meters in previous plans.
