Subject: Mod2020/0113 - DA2016/0523 Objection

To whom it may concern

I would like to object to the above modification. It would appear this is revisiting an existing ruling by independent planning panel. In that ruling an awning was to be built to minimise light shed from this business into surrounding residence. I think it only reasonable for this condition to be maintained . The modification that has been done does not seem to have had any effect on the surrounding community, light still seems to be streaming from the 6 metre canopy. I would expect the Council maintains its position to erect the awning previously proposed to be constructed by September, 2019. I think this is only fair and reasonable for the community and surrounding residents.

Regards.

Christine Cook.
