|--------------------------|--------------|

# PROPOSED DEVELOPMENT IN DETAIL

The development seeks consent for Alterations and additions to the existing dwelling including the addition of a handstand space and a new front fence.

Specifically the following works:

- Construction of single hardstand car parking space (RL36.23 RL36.75 to RL36.23 RL37.01).
- Construction of external staircase on the northern side elevation.
- Construction of front fencing.

## **ASSESSMENT INTRODUCTION**

DA2024/1451 Page 1 of 27

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared (the subject of this report)
  taking into account all relevant provisions of the Environmental Planning and Assessment Act
  1979, and the associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon the subject site and adjoining, surrounding and nearby properties;
- Notification to adjoining and surrounding properties, advertisement (where required) and referral to relevant internal and external bodies in accordance with the Act, Regulations and relevant Development Control Plan;
- A review and consideration of all submissions made by the public and community interest groups in relation to the application;
- A review and consideration of all documentation provided with the application (up to the time of determination);
- A review and consideration of all referral comments provided by the relevant Council Officers, State Government Authorities/Agencies and Federal Government Authorities/Agencies on the proposal.

#### SUMMARY OF ASSESSMENT ISSUES

Manly Development Control Plan - 3.4.2 Privacy and Security

Manly Development Control Plan - 4.1.4 Setbacks (front, side and rear) and Building Separation

Manly Development Control Plan - 4.1.5 Open Space and Landscaping

Manly Development Control Plan - 4.1.6 Parking, Vehicular Access and Loading (Including Bicycle Facilities)

#### SITE DESCRIPTION

| Property Description:      | Lot 50 DP 6100 , 40 Quinton Road MANLY NSW 2095  |
|----------------------------|--|
| Detailed Site Description: | The subject site consists of one (1) allotment located on the eastern side of Quinton Road.  |
|                            | The site is generally regular in shape with a frontage of 12.19m along Quinton Road and a depth of 39.725m. The site has a surveyed area of 471.6m².   |
|                            | The site is located within the R1 General Residential zone and accommodates an existing two storey dwelling house.   |
|                            | The site slopes significantly from its western (front) boundary to eastern (rear) boundary. This slope results in an approximate 6.7m total height change across the site (as taken from the provided survey).           |
|                            | The site has existing landscaped areas within the front and rear setbacks with four (4) notable trees located on site and one (1) notable tree located within the nature strip in front of the property on Quinton Road. |

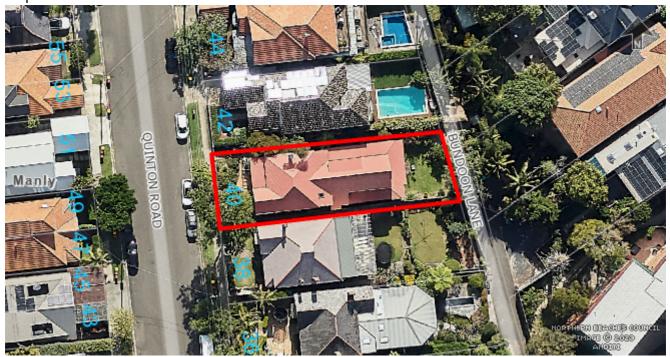

DA2024/1451 Page 2 of 27

# Detailed Description of Adjoining/Surrounding Development

Adjoining and surrounding development is characterised by single and two storey dwelling houses.

Мар:

## SITE HISTORY

A search of Council's records has revealed that there are no recent or relevant applications for this site.

The land has been used for residential purposes for an extended period of time.

# **ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)**

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979, are:

| Section 4.15 Matters for Consideration  | Comments   |
|---|--|
| Section 4.15 (1) (a)(i) –<br>Provisions of any<br>environmental planning<br>instrument        | See discussion on "Environmental Planning Instruments" in this report. |
| Section 4.15 (1) (a)(ii) –<br>Provisions of any draft<br>environmental planning<br>instrument | There are no current draft environmental planning instruments.         |
| Section 4.15 (1) (a)(iii) –<br>Provisions of any development                                  | Manly Development Control Plan applies to this proposal.               |

| Section 4.15 Matters for   | Comments   |  |  |
|--|--|--|--|
| Consideration  |  |  |  |
| control plan   |  |  |  |
| Section 4.15 (1) (a)(iiia) –<br>Provisions of any planning<br>agreement  | None applicable.   |  |  |
| Section 4.15 (1) (a)(iv) –<br>Provisions of the<br>Environmental Planning and<br>Assessment Regulation 2021  | Part 4, Division 2 of the EP&A Regulation 2021 requires the consent authority to consider "Prescribed conditions" of development consent. These matters have been addressed via a condition of consent.                            |  |  |
| (EP&A Regulation 2021)   | Clause 29 of the EP&A Regulation 2021 requires the submission of a design verification certificate from the building designer at lodgement of the development application. This clause is not relevant to this application.        |  |  |
|  | Clauses 36 and 94 of the EP&A Regulation 2021 allow Council to request additional information. No additional information was requested in this case.   |  |  |
|  | Clause 61 of the EP&A Regulation 2021 requires the consent authority to consider AS 2601 - 1991: The Demolition of Structures. This matter has been addressed via a condition of consent.  |  |  |
|  | Clauses 62 and/or 64 of the EP&A Regulation 2021 requires the consent authority to consider the upgrading of a building (including fire safety upgrade of development). This matter has been addressed via a condition of consent. |  |  |
|  | Clause 69 of the EP&A Regulation 2021 requires the consent authority to consider insurance requirements under the Home Building Act 1989. This matter has been addressed via a condition of consent.                               |  |  |
|  | Clause 69 of the EP&A Regulation 2021 requires the consent authority to consider the provisions of the Building Code of Australia (BCA). This matter has been addressed via a condition of consent.                                |  |  |
| Section 4.15 (1) (b) – the likely impacts of the development, including environmental impacts on the natural and built environment and social and economic impacts in the locality | (i) Environmental Impact The environmental impacts of the proposed development on the natural and built environment are addressed under the Manly Development Control Plan section in this report.                                 |  |  |
|  | (ii) <b>Social Impact</b> The proposed development will not have a detrimental social impact in the locality considering the character of the proposal.  |  |  |
|  | (iii) <b>Economic Impact</b> The proposed development will not have a detrimental economic impact on the locality considering the nature of the existing and proposed land use.  |  |  |
| Section 4.15 (1) (c) – the suitability of the site for the   | The site is considered suitable for the proposed development.  |  |  |

DA2024/1451 Page 4 of 27

| Section 4.15 Matters for Consideration  | Comments  |
|---|---|
| development   |   |
| Section 4.15 (1) (d) – any<br>submissions made in<br>accordance with the EPA Act<br>or EPA Regs | See discussion on "Notification & Submissions Received" in this report.   |
| Section 4.15 (1) (e) – the public interest  | No matters have arisen in this assessment that would justify the refusal of the application in the public interest. |

#### **EXISTING USE RIGHTS**

Existing Use Rights are not applicable to this application.

### **BUSHFIRE PRONE LAND**

The site is not classified as bush fire prone land.

### **NOTIFICATION & SUBMISSIONS RECEIVED**

The subject application has been publicly exhibited from 07/11/2024 to 21/11/2024 in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2021 and the Community Participation Plan.

As a result of the public exhibition process council is in receipt of 1 submission/s from:

| Name:                    | Address:                       |  |
|--------------------------|--------------------------------|--|
| Mrs Renae Judith Mclaren | 42 Quinton Road MANLY NSW 2095 |  |

The following issues were raised in the submission:

- Non-compliance with State Environmental Planning Policy (Exempt and Complying Development Codes) 2008.
- Visual and Acoustic Privacy
- Stormwater Drainage and Fill

The above issues are addressed as follows:

 Non-compliance with various controls of the Exempt and Complying Development Codes SEPP.

The submission raised concerns that the development is not compliant with sections 2.28f(iii), 2.28(a) and 2.28(c).

Comment:

DA2024/1451 Page 5 of 27

The development does not seek approval through the Exempt and Complying Development Codes SEPP, rather, through a non-standard plan (Local Environmental Plan and Development Control Plan) and is therefore not required to be compliant with the development standards set out in section 2.28.

# Visual and Acoustic Privacy

The submission raised concerns that the development will result in an adverse impact on the visual and acoustic amenity of adjoining residents.

## Comment:

The development is for a driveway and a single hardstand car parking space. The development is located within the front setback and will have an approximate 300mm setback from its northern side boundary. The driveway and carparking space have been located to mitigate impacts on the two existing trees within the front setback. The use of the proposed space as a driveway, car parking space, and staircase is unlikely to result in unreasonable visual and acoustic impacts on adjoining properties.

### Stormwater and Fill

The submission raised concerns that the development will change the stormwater characteristics of the site and increase runoff onto adjoining properties.

#### Comment:

The development proposes to raise the driveway and car parking space ground level from RL36.23 - RL36.75 to RL36.23 - RL36.89. The development also proposes to construct a staircase on the northern elevation of the site to allow access from the front of the site to the rear. The staircase will be raised between 200mm and 1.0m above existing ground level. The staircase is considered a structure and not fill. The development does not seek to fill the existing landscaped area between the staircase and the northern boundary. It is considered that the retained landscaped area and minor increase in impervious area will not significantly change the stormwater runoff characteristics of the site.

#### **REFERRALS**

| Internal Referral Body | Comments  |
|------------------------|---|
| Landscape Officer      | The applications seeks consent for: Alterations and additions to the existing dwelling including the addition of a handstand space and a new front fence. |
|                        | The plans and SEE indicate that no significant landscape features are impacted by the proposed works. No non-exempt trees are to be removed.              |
|                        | No objections are raised regarding landscape issues subject to conditions.  |

DA2024/1451 Page 6 of 27

| External Referral Body             | Comments   |
|------------------------------------|--|
| and Infrastructure) 2021,<br>s2.48 | The proposal was referred to Ausgrid who provided a response stating that the proposal is acceptable subject to compliance with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice. These recommendations will be included as a condition of consent. |

# **ENVIRONMENTAL PLANNING INSTRUMENTS (EPIS)\***

All, Environmental Planning Instruments (SEPPs and LEPs), Development Controls Plans and Council Policies have been considered in the merit assessment of this application.

In this regard, whilst all provisions of each Environmental Planning Instruments (SEPPs and LEPs), Development Controls Plans and Council Policies have been considered in the assessment, many provisions contained within the document are not relevant or are enacting, definitions and operational provisions which the proposal is considered to be acceptable against.

As such, an assessment is provided against the controls relevant to the merit consideration of the application hereunder.

# State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans (SREPs)

# SEPP (Transport and Infrastructure) 2021

## <u>Ausgrid</u>

Section 2.48 of Chapter 2 requires the Consent Authority to consider any development application (or an application for modification of consent) for any development carried out:

- within or immediately adjacent to an easement for electricity purposes (whether or not the electricity infrastructure exists).
- immediately adjacent to an electricity substation.
- within 5.0m of an overhead power line.
- includes installation of a swimming pool any part of which is: within 30m of a structure supporting an overhead electricity transmission line and/or within 5.0m of an overhead electricity power line.

### Comment:

The proposal was referred to Ausgrid who raised no objections, subject to conditions which have been included in the recommendation of this report.

## SEPP (Resilience and Hazards) 2021

## **Chapter 4 – Remediation of Land**

Sub-section 4.6 (1)(a) of Chapter 4 requires the Consent Authority to consider whether land is

DA2024/1451 Page 7 of 27

contaminated. Council records indicate that the subject site has been used for residential purposes for a significant period of time with no prior land uses. In this regard it is considered that the site poses no risk of contamination and therefore, no further consideration is required under sub-section 4.6 (1)(b) and (c) of this Chapter and the land is considered to be suitable for the residential land use.

# **Manly Local Environmental Plan 2013**

# **Detailed Assessment**

# 3.4.2 Privacy and Security

# Merit consideration:

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

Objective 1) To minimise loss of privacy to adjacent and nearby development by:

- appropriate design for privacy (both acoustical and visual) including screening between closely spaced buildings; and
- mitigating direct viewing between windows and/or outdoor living areas of adjacent buildings.

## **Comment:**

The proposed hardstand car parking space, staircase and associated works are unlikely to result in unreasonable visual and acoustic privacy impacts. Both areas will be used as transition areas to get access to and from the site and street.

Objective 2) To increase privacy without compromising access to light and air. To balance outlook and views from habitable rooms and private open space.

## Comment:

DA2024/1451 Page 10 of 27

The development will not unreasonably reduce the existing privacy enjoyed by the applicants and adjoining sites.

Objective 3) To encourage awareness of neighbourhood security.

#### Comment:

The development will not impact neighbourhood security.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of MDCP and the objectives specified in section 1.3(a) of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

## 4.1.4 Setbacks (front, side and rear) and Building Separation

## **Description of non-compliance**

The development proposes a hardstand car parking space with a nil front setback. It is considered that this is consistent with the prevailing car parking setback within the street and immediate locality as demonstrated below. The development can be considered reasonable on merit in this circumstance, subject to the below merit assessment.

#### Merit consideration:

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

Objective 1) To maintain and enhance the existing streetscape including the desired spatial proportions of the street, the street edge and the landscape character of the street.

## Comment:

Quinton Road is characterised by single and two storey dwelling houses with car parking facilities located within the front setback with a minimal to nil setback. These parking facilities are generally single car space carports with some two car space carports and two car space garages. These parking facilities are generally located to one side of the properties with a small or nil side setback. It is considered that the proposed hardstand car parking space will be consistent with the existing and desired future character of the locality.

Objective 2) To ensure and enhance local amenity by:

- providing privacy;
- providing equitable access to light, sunshine and air movement; and
- facilitating view sharing and maintaining adequate space between buildings to limit impacts on views and vistas from private and public spaces.
- defining and adding character to the streetscape including the provision of adequate space between buildings to create a rhythm or pattern of spaces; and
- facilitating safe and adequate traffic conditions including levels of visibility around corner lots at the street intersection.

DA2024/1451 Page 11 of 27

# Comment:

The development will not adversely impact privacy, access to light, view sharing, building separation, defining streetscape character, and traffic conditions. It is considered that the development will be consistent with the above objective.

Objective 3) To promote flexibility in the siting of buildings.

## Comment:

The development will not unreasonably limit the siting of buildings.

Objective 4) To enhance and maintain natural features by:

- accommodating planting, including deep soil zones, vegetation consolidated across sites, native vegetation and native trees;
- ensuring the nature of development does not unduly detract from the context of the site and particularly in relation to the nature of any adjoining Open Space lands and National Parks; and
- ensuring the provisions of State Environmental Planning Policy No 19 Urban Bushland are satisfied.

## Comment:

The development is located on site specifically with the intent of retaining existing natural environmental features. Relocating the driveway and carparking space within the front setback would likely result in an adverse impact on existing trees.

Objective 5) To assist in appropriate bush fire asset protection zones.

#### Comment:

The development will have no impact on the sites capabilities to assist in appropriate bushfire asset protection zones.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of MDCP and the objectives specified in section 1.3(a) of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

### 4.1.5 Open Space and Landscaping

#### <u>Description of non-compliance</u>

The site has an existing non-compliant total open space. The development reduces the existing landscaped area, however, remains compliant with the minimum landscaped area control. It is considered that the existing non-compliant total open space can be considered reasonable, subject to the below merit assessment.

#### Merit consideration:

DA2024/1451 Page 12 of 27

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

Objective 1) To retain and augment important landscape features and vegetation including remnant populations of native flora and fauna.

#### Comment:

The proposed development has been located and designed to ensure that the existing significant landscape features on site are retained.

Objective 2) To maximise soft landscaped areas and open space at ground level, encourage appropriate tree planting and the maintenance of existing vegetation and bushland.

## Comment:

The development results in a reduction of landscaped area but remains compliant with the minimum landscaped area control. It is considered that the area provided is enough to satisfy the objective.

Objective 3) To maintain and enhance the amenity (including sunlight, privacy and views) of the site, the streetscape and the surrounding area.

#### Comment:

The development will have no adverse impact on the existing solar access of the site, streetscape and surrounding area.

Objective 4) To maximise water infiltration on-site with porous landscaped areas and surfaces and minimise stormwater runoff.

### Comment:

The site provides for landscaped areas within the front, rear, and both side setbacks. It is considered that reasonable area is provided to mitigate stormwater runoff.

Objective 5) To minimise the spread of weeds and the degradation of private and public open space.

## Comment:

The development does not propose to plant any weeds, nor does it propose areas where weeds would be able to grow unmanaged.

Objective 6) To maximise wildlife habitat and the potential for wildlife corridors.

#### Comment:

The development will retain its existing remnant native landscape features which provide wildlife habitat and the potential for wildlife corridors.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of MDCP and the objectives specified in section 1.3(a) of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

DA2024/1451 Page 13 of 27

# 4.1.6 Parking, Vehicular Access and Loading (Including Bicycle Facilities)

## Description of non-compliance

The development provides for one (1) car parking space on-site where Council requires two (2). It is noted that the site currently has no off street parking and that for the site to provide for two (2) car parking spaces it would likely result in other non-compliances. For these reasons the proposal can be considered reasonable subject to the below merit assessment.

#### Merit consideration:

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

Objective 1) To provide accessible and adequate parking on site relative to the type of development and the locality for all users (residents, visitors or employees).

#### Comment:

The development will provide for off street parking which is currently not available on-site. It is considered that the development is reflective of the use and locality.

Objective 2) To reduce the demand for on-street parking and identify where exceptions to onsite parking requirements may be considered in certain circumstances.

#### Comment:

The development will reduce the demand for on-street parking by providing additional off-street parking.

Objective 3) To ensure that the location and design of driveways, parking spaces and other vehicular access areas are efficient, safe, convenient and are integrated into the design of the development to minimise their visual impact in the streetscape.

#### Comment:

The design of the driveway and parking space is considered to be efficient, safe, and convenient.

Objective 4) To ensure that the layout of parking spaces limits the amount of site excavation in order to avoid site instability and the interruption to ground water flows.

#### Comment:

The proposed excavation is minor in nature and will not result in site instability or the interruption to ground water flows.

Objective 5) To ensure the width and number of footpath crossings is minimised.

# Comment:

DA2024/1451 Page 14 of 27

The development results in one (1) additional footpath crossing to a total of two (2). It is considered that this is consistent with residential developments in the immediate locality (one (1) for the pathway and one (1) for the driveway).

Objective 6) To integrate access, parking and landscaping; to limit the amount of impervious surfaces and to provide screening of internal accesses from public view as far as practicable through appropriate landscape treatment.

#### Comment:

Reasonable amounts of landscaped area are maintained within the front setback. It is considered that the development is consistent with the control.

Objective 7) To encourage the use of public transport by limiting onsite parking provision in Centres that are well serviced by public transport and by encouraging bicycle use to limit traffic congestion and promote clean air.

#### Comment:

The subject site is not located within a Centre that is will serviced by public transport.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of MDCP and the objectives specified in section 1.3(a) of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

### THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES

The proposal will not significantly affect threatened species, populations or ecological communities, or their habitats.

#### CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

### **POLICY CONTROLS**

### Northern Beaches Section 7.12 Contributions Plan 2024

As the estimated cost of works is less than \$100,001.00 the policy is not applicable to the assessment of this application.

## **CONCLUSION**

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2021;
- All relevant and draft Environmental Planning Instruments;
- Manly Local Environment Plan;

DA2024/1451 Page 15 of 27

- Manly Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

#### RECOMMENDATION

THAT Council as the consent authority grant Development Consent to DA2024/1451 for Alterations and additions to the existing dwelling including the addition of a handstand space and a new front fence on land at Lot 50 DP 6100, 40 Quinton Road, MANLY, subject to the conditions printed below:

#### **Terms and Reasons for Conditions**

Under section 88(1)(c) of the EP&A Regulation, the consent authority must provide the terms of all conditions and reasons for imposing the conditions other than the conditions prescribed under section 4.17(11) of the EP&A Act. The terms of the conditions and reasons are set out below.

# **GENERAL CONDITIONS**

## 1. Approved Plans and Supporting Documentation

Development must be carried out in accordance with the following approved plans (stamped by Council) and supporting documentation, except where the conditions of this consent expressly require otherwise.

| Approve | Approved Plans     |                                      |                           |              |
|---------|--------------------|--------------------------------------|---------------------------|--------------|
|         | Revision<br>Number | Plan Title                           | Drawn By                  | Date of Plan |
| DA01    | A                  | Site Plan/ Site Analysis<br>Plan     | Dillon & Savage Design    | October 2024 |
| DA02    |                    | Parking Layout &<br>Driveway Section | Dillon & Savage<br>Design | October 2024 |

DA2024/1451 Page 16 of 27

| DA03 | А |                                      | Dillon & Savage<br>Design | October 2024 |
|------|---|--------------------------------------|---------------------------|--------------|
| DA04 | А |                                      | Dillon & Savage<br>Design | October 2024 |
| DA05 | А | Elevations/ Sections<br>West & North | Dillon & Savage<br>Design | October 2024 |

| Approved Reports and Documentation |                   |                           |   |
|------------------------------------|-------------------|---------------------------|---|
| Document Title                     | Version<br>Number | Prepared By               | Date of Document                                |
| Waste Management Report            | -                 | -                         | Received<br>by Council<br>24<br>October<br>2024 |
| Geotechnical Report                | -                 | Dillon & Savage<br>Design | 22<br>October<br>2024                           |

In the event of any inconsistency between the approved plans, reports and documentation, the approved plans prevail.

In the event of any inconsistency between the approved plans and a condition of this consent, the condition prevails.

Reason: To ensure all parties are aware of the approved plans and supporting documentation that applies to the development.

# 2. Compliance with Other Department, Authority or Service Requirements

The development must be carried out in compliance with all recommendations and requirements, excluding general advice, within the following:

| Other Department, Authority or Service | EDMS Reference            | Dated               |
|--|---------------------------|---------------------|
| Ausgrid                                | Ausgrid Referral Response | 27 November<br>2024 |

(NOTE: For a copy of the above referenced document/s, please see Application Tracking on Council's website <a href="https://www.northernbeaches.nsw.gov.au">www.northernbeaches.nsw.gov.au</a>)

Reason: To ensure the work is carried out in accordance with the determination and the statutory requirements of other departments, authorities or bodies.

## 3. Prescribed conditions (Demolition):

- (a) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
  - (i) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and

DA2024/1451 Page 17 of 27

(ii) stating that unauthorised entry to the work site is prohibited.

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.

- (b) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifier for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
  - (i) in the case of work for which a principal contractor is required to be appointed:
    - A. the name and licence number of the principal contractor, and
    - B. the name of the insurer by which the work is insured under Part 6 of that Act,
  - (ii) in the case of work to be done by an owner-builder:
    - A. the name of the owner-builder, and
    - B. if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifier for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

- (c) Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:
  - (i) protect and support the adjoining premises from possible damage from the excavation, and
  - (ii) where necessary, underpin the adjoining premises to prevent any such damage.
  - (iii) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
  - (iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

Reason: Legislative Requirement.

#### 4. Prescribed Conditions

- (a) All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).
- (b) BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);
- (c) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
  - (i) showing the name, address and telephone number of the Principal Certifier for the work, and
  - (ii) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
  - (iii) stating that unauthorised entry to the work site is prohibited.

DA2024/1451 Page 18 of 27

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.

- (d) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifier for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
  - (i) in the case of work for which a principal contractor is required to be appointed:
    - A. the name and licence number of the principal contractor, and
    - B. the name of the insurer by which the work is insured under Part 6 of that Act,
  - (ii) in the case of work to be done by an owner-builder:
    - A. the name of the owner-builder, and
    - B. if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifier for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

- (e) Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:
  - (i) protect and support the adjoining premises from possible damage from the excavation, and
  - (ii) where necessary, underpin the adjoining premises to prevent any such damage.
  - (iii) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
  - (iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place.

Reason: Legislative requirement.

## 5. General requirements (Demolition):

(a) Unless authorised by Council:

Demolition and excavation works are restricted to:

8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

DA2024/1451 Page 19 of 27

- (b) At all times after the submission a Notice of Commencement to Council, a copy of the Development Consent is to remain onsite at all times until completion of demolition works. The consent shall be available for perusal of any Authorised Officer.
- (c) Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.
- (d) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.
- (e) The applicant shall bear the cost of all works that occur on Council's property.
- (f) No building, demolition, excavation or material of any nature shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.
- (g) Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.
- (h) All sound producing plant, equipment, machinery or fittings will not exceed more than 5dB(A) above the background level when measured from any property boundary and will comply with the Environment Protection Authority's NSW Industrial Noise Policy.)
- (i) No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.) or on the land to be developed shall be removed or damaged during construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

# 6. General Requirements

(a) Unless authorised by Council:

Building construction and delivery of material hours are restricted to:

- 7.00 am to 5.00 pm inclusive Monday to Friday,
- 8.00 am to 1.00 pm inclusive on Saturday,
- No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

(b) Construction certificate plans are to be in accordance with all finished levels identified on approved plans. Notes attached to plans indicating tolerances to levels are not approved.

DA2024/1451 Page 20 of 27

- (c) Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.
- (d) At all times after the submission of the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of an Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.
- (e) Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.
- (f) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.
- (g) Prior to the release of the Construction Certificate, payment of the following is required:
  - i) Long Service Levy Payment should be made to Service NSW (online or in person) or alternatively to Northern Beaches Council in person at a Customer Service Centre. Payment is not required where the value of the works is less than \$250,000. The Long Service Levy is calculated on 0.25% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.
  - ii) Section 7.11 or Section 7.12 Contributions Plan Payment must be made to Northern Beaches Council. Where the subject land to which the development is proposed is subject to either a Section 7.11 or 7.12 Contributions Plan, any contribution to which the development is liable under the respective plan that applies is to be paid to Council. The outstanding contribution will be indexed at time of payment in accordance with the relevant Contributions Plan.
  - iii) Housing and Productivity Contribution Payment must be made on the NSW Planning Portal for development to which this contribution applies. The amount payable is subject to indexation at the time of payment.
- (h) The applicant shall bear the cost of all works associated with the development that occurs on Council's property.
- (i) No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.
- (j) Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.
- (k) No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.), on the land to be developed, or within adjoining properties, shall be removed or damaged during excavation or construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.
- (I) Prior to the commencement of any development onsite for:
  - i) Building/s that are to be erected
  - ii) Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place

DA2024/1451 Page 21 of 27

- iii) Building/s that are to be demolished
- iv) For any work/s that is to be carried out
- v) For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.

- (m) A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.
- (n) The works must comply with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice.
- (o) Should any construction cranes be utilised on site, they are to be fitted with bird deterrents along the counterweight to discourage raptor (bird) nesting activity.

  Deterrents are to remain in place until cranes are dismantled. Selection of deterrent methods is to be undertaken in accordance with the recommendations of a suitably qualified ecologist.
- (p) Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.
  - (1) Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following;

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:

- (i) Swimming Pools Act 1992
- (ii) Swimming Pools Amendment Act 2009
- (iii) Swimming Pools Regulation 2018
- (iv) Australian Standard AS1926 Swimming Pool Safety
- (v) Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
- (vi) Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
- (2) A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.
- (3) Filter backwash waters shall be conveyed to the Sydney Water sewerage system in sewered areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system.
- (4) Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

DA2024/1451 Page 22 of 27

# **FEES / CHARGES / CONTRIBUTIONS**

# 7. Security Bond

A bond (determined from cost of works) of \$2,000 and an inspection fee in accordance with Council's Fees and Charges paid as security are required to ensure the rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoining the site as a result of construction or the transportation of materials and equipment to and from the development site.

An inspection fee in accordance with Council adopted fees and charges (at the time of payment) is payable for each kerb inspection as determined by Council (minimum (1) one inspection).

All bonds and fees shall be deposited with Council prior to Construction Certificate or demolition work commencing, and details demonstrating payment are to be submitted to the Certifier prior to the issue of the Construction Certificate.

To process the inspection fee and bond payment a Bond Lodgement Form must be completed with the payments (a copy of the form is attached to this consent and alternatively a copy is located on Council's website at www.northernbeaches.nsw.gov.au).

Reason: To ensure adequate protection of Council's infrastructure.

# **BUILDING WORK – BEFORE ISSUE OF A CONSTRUCTION CERTIFICATE**

#### 8. **Boundary Identification Survey**

A boundary identification survey, prepared by a Registered Surveyor, shall be provided in respect of the subject site.

The plans submitted for the Construction Certificate are to accurately reflect the property boundaries as shown on the boundary identification survey, with setbacks between the property boundaries and the approved works consistent with those nominated on the Approved Plans of this consent.

Details demonstrating compliance are to be submitted to the Certifier prior to the issue of any Construction Certificate.

Reason: To ensure all approved works are constructed within the subject site and in a manner anticipated by the development consent.

### 9. Waste Management Plan

A Waste Management Plan must be prepared for this development. The Plan must be in accordance with the Development Control Plan.

Details demonstrating compliance must be provided to the Certifier prior to the issue of the Construction Certificate.

Reason: To ensure that any demolition and construction waste, including excavated material, is reused, recycled or disposed of in an environmentally friendly manner.

DA2024/1451 Page 23 of 27

# 10. Compliance with standards (Demolition):

The development is required to be carried out in accordance with all relevant Australian Standards.

Details demonstrating compliance with the relevant Australian Standard are to be submitted to Council prior to the commencement of demolition works.

Reason: To ensure the development is constructed in accordance with appropriate standards.

# 11. Compliance with Standards

The development is required to be carried out in accordance with all relevant Australian Standards.

Details demonstrating compliance with the relevant Australian Standard are to be submitted to the Certifier prior to the issue of the Construction Certificate.

Reason: To ensure the development is constructed in accordance with appropriate standards.

## **DURING BUILDING WORK**

## 12. Protection of Existing Street Trees

All existing street trees in the vicinity of the works shall be retained during all construction stages, and the street tree(s) fronting the development site shall be protected by tree protection fencing in accordance with Section 4 of AS4970-2009 Protection of trees on development sites. As a minimum the tree protection fencing for street tree(s) fronting the development site shall consist of standard 2.4m panel length to four sides and in accordance with Australian Standard 4687-2007 Temporary Fencing and Hoardings, unless otherwise directed by an Arborist with minimum AQF Level 5 in arboriculture. All fencing shall be located to allow for unrestricted and safe pedestrian access upon the road verge.

All street trees within the road verge are protected under Northern Beaches Council development control plans, except where Council's written consent for removal has been obtained. The felling, lopping, topping, ringbarking, or removal of any tree(s) is prohibited. No excavated material, building material storage, site facilities, nor landscape materials are to be placed within the canopy dripline of street trees.

Reason: Street tree protection.

# 13. Tree and Vegetation Protection

- Existing trees and vegetation shall be retained and protected, including:
  - i) all trees within the site not indicated for removal on the approved Plans,
  - ii) all trees and vegetation located on adjoining properties,
  - iii) all trees and vegetation within the road reserve.
- b) Tree protection shall be undertaken as follows:
  - i) tree protection shall be in accordance with AS4970-2009 Protection of trees on development sites,
  - ii) existing ground levels shall be maintained within the tree protection zone of trees to be retained, unless authorised by an Arborist/Project Arborist with minimum AQF Level 5 in arboriculture,

DA2024/1451 Page 24 of 27

- iii) removal of existing tree roots at or >25mm (Ø) diameter is not permitted without consultation with an Arborist/Project Arborist with minimum AQF Level 5 in arboriculture,
- iv) no excavated material, building material storage, site facilities, nor landscape materials are to be placed within the canopy dripline of trees and other vegetation required to be retained,
- v) structures are to bridge tree roots at or >25mm (Ø) diameter unless directed by an Arborist/Project Arborist with minimum AQF Level 5 in arboriculture on site,
- vi) excavation for stormwater lines and all other utility services is not permitted within the tree protection zone, without consultation with an Arborist/Project Arborist with minimum AQF Level 5 in arboriculture including advice on root protection measures,
- vii) should either or all of v) or vi) occur during site establishment and construction works, an Arborist/Project Arborist with minimum AQF Level 5 in arboriculture shall provide recommendations for tree protection measures. Details including photographic evidence of works undertaken shall be submitted by the Arborist/Project Arborist to the Principal Certifier,
- viii) any temporary access to, or location of scaffolding within the tree protection zone of a protected tree or any other tree to be retained during the construction works is to be undertaken using the protection measures specified in sections 4.5.3 and 4.5.6 of AS4970-2009 Protection of trees on development sites,
- the activities listed in section 4.2 of AS4970-2009 Protection of trees on development sites, shall not occur within the tree protection zone of any tree on the lot or any tree on an adjoining site,
- x) tree pruning from within the site to enable approved works shall not exceed 10% of any tree canopy, and shall be in accordance with AS4373-2007 Pruning of amenity trees,
- xi) the tree protection measures specified in this clause must: i) be in place before work commences on the site, and ii) be maintained in good condition during the construction period, and iii) remain in place for the duration of the construction works.

The Principal Certifier must ensure that:

c) The arboricultural works listed in a) and b) are undertaken and complaint to AS4970-2009 Protection of trees on development sites.

Reason: Tree and vegetation protection.

## 14. Condition of Trees

During the construction period the applicant is responsible for ensuring all existing trees required to be retained are maintained in a healthy and vigorous condition. This is to be done by ensuring that all identified tree protection measures are adhered to or by seeking arboricultural advice from an Arborist with minimum AQF Level 5 in arboriculture during the works.

In this regard all protected trees shall not exhibit:

i) a general decline in health and vigour,

DA2024/1451 Page 25 of 27

- ii) damaged, crushed or dying roots due to poor pruning techniques,
- iii) more than 10% loss or dieback of roots, branches and foliage,
- iv) mechanical damage or bruising of bark and timber of roots, trunk and branches,
- v) yellowing of foliage or a thinning of the canopy untypical of its species,
- vi) an increase in the amount of deadwood not associated with normal growth,
- vii) an increase in kino or gum exudation,
- viii) inappropriate increases in epicormic growth that may indicate that the plants are in a stressed condition.
- ix) branch drop, torn branches and stripped bark not associated with natural climatic conditions.

Any mitigating measures and recommendations required by the Arborist are to be implemented.

The owner of the adjoining allotment of land is not liable for the cost of work carried out for the purpose of this clause.

Reason: Protection of trees.

# 15. Survey Certificate

A survey certificate prepared by a Registered Surveyor is to be provided demonstrating all perimeter walls columns and or other structural elements, floor levels and the finished roof/ridge height are in accordance with the approved plans.

Details demonstrating compliance are to be submitted to the Principal Certifier when the external structure of the building is complete.

Reason: To demonstrate the proposal complies with the approved plans.

### 16. Maintenance of Sediment and Erosion Controls

Erosion and sediment controls must be adequately maintained and monitored at all times, particularly surrounding periods of rain, and shall remain in proper operation until all development activities have been completed and the site is in a state where no substance other than rainwater can enter the stormwater system and waterways.

All sediment control measures must be maintained at, or above, their design capacity.

Where more than 2500 square metres of land are disturbed or if the site has a slope of more than 20%, a self-auditing program must be developed for the site. A site inspection using a log book or inspection test plan (ITP) must be undertaken by the site supervisor:

- at least each week
- immediately before site closure
- immediately following rainfall events that cause runoff.

Details demonstrating compliance must be provided to the Certifier during demolition and building works.

Reason: Protection of the receiving environment and to ensure no substance other than rainwater enters the stormwater system and waterways.

DA2024/1451 Page 26 of 27

# 17. Waste Management During Development

The reuse, recycling or disposal of waste during works must be done generally in accordance with the Waste Management Plan for this development.

Details demonstrating compliance must be submitted to the Principal Certifier.

Reason: To ensure demolition and construction waste is recycled or reused and to limit landfill.

# BEFORE ISSUE OF THE OCCUPATION CERTIFICATE

# 18. Stormwater Drainage Disposal Certification

Certification from an appropriately qualified person demonstrating the stormwater drainage systems have been designed and installed in accordance with the requirements of Council's Water Management for Development Policy.

Details demonstrating compliance are to be submitted to the Principal Certifier prior to the issue of an Occupation Certificate.

Reason: To ensure satisfactory management of stormwater.

In signing this report, I declare that I do not have a Conflict of Interest.

**Signed** 

Reeve Cocks, Planner

The application is determined on 11/12/2024, under the delegated authority of:

**Rodney Piggott, Manager Development Assessments**
