Subject: DA2019/0683 Bower/Reddall Street, Manly

Online Submission

We write to object to the above development.

We have lived in the house opposite this proposed development for the past 36 years and have raised our children and now our grandchildren in this beautiful area. We have seen so much development occur over the years and have had to absorb the impact this has caused. The traffic now on a summer's day is diabolical. This development would only add to this bottleneck that occurs with the narrow streets and adding this amount of people right on the neck of this is just madness.

We now look over on to a leafy corner whereas this development would destroy this and decrease the natural beauty of the flora and fauna of this iconic corner.

We believe that it is not compliant with the dcp and lep of council.

We strongly ask council to reject this application on the grounds of overdevelopment of the site.

Yours sincerely,
Ken and Sue Elliott
1 Bower Lane,
Manly 2095
