Officer comments

The application seeks approval for the demolition of existing boatshed and construction of a new boatshed with recessed slip rails to be added to the existing concrete ramp. Council's Natural Environment Unit - Biodiversity referral team have reviewed the application for consistency against the relevant environmental legislation and controls, including:

State Environmental Planning Policy (Coastal Management)

- Coastal Environment Area

Pittwater Local Environmental Plan (PLEP)

- 7.6 Biodiversity Protection

The application will not have a significant impact on biodiversity features within the site, nor is it likely to impact on nearby terrestrial biodiversity values. Subject to conditions the Bushland and Biodiversity referral team find the application to be consistent against relevant environmental controls.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
