RE: DA2019/1340 - 100 / 0 Meatworks Avenue OXFORD FALLS NSW 2100

I'd like to express my concern over this application. My child attends Oxford Falls Grammar School and the access road to this site is in no way fit for additional traffic, specifically trucks which will no doubt clog the already extremely busy roadways during school times and make this an unsafe area for children. The road to this site and Oxford Falls Road do not have kerb and guttering or pavements. In addition this is a rural area with large properties and animals and this kind of development is just ruining a beautiful area. There is no need to have a development of this nature in this location.
