RE: DA2024/1297 - 3 - 5 Pittwater Road MANLY NSW 2095

The current gym is noisy both in terms of heavy weights dropping/banging on the floor, music and the amount of people visiting at all hours - It is even worse in the summer due to the windows being open and the noise travelling. The other major problem is CAR PARKING - It is currently a massive problem and doubling the size of gym/ number of visitors will cause chaos for local residents
