SECTION 2 – ISSUES

PUBLIC EXHIBITION

The subject application was publicly exhibited in accordance with the EPA Regulation 2000 and the applicable Development Control Plan.

As a result of the public exhibition of the application Council received submissions from:

Name	Address
Mr Vincent Colubriale	40 Blarney Avenue Killarney Heights
Jenifer Ashpole	16 Ballina Avenue Killarney heights

The matters raised within the submissions are addressed as follows:

- The balcony on the south elevation will overlook the pool and entertaining area on No.40 Blarney Avenue Killarney Heights.

Comment: The proposed balcony on the first floor level will be orientated to the street. It is to be conditioned that a 1.65m high privacy screen be erected along the southern edge of the balcony to prevent direct overlooking.

- Concern is raised in relation to the extent of overshadowing of the private open space area of No.40 Blarney Avenue Killarney Heights as a result of the erection of the proposed 2 storey dwelling.

Comment: Amended plans were submitted on 12 November 2009 that provide a front setback of 10.11m and a southern side setback of 2.025m. As a result the extent of overshadowing over the total private open space area (including the existing pergola area) is to be reduced to 89.96sqm (55.8%) between 9am and 12 noon on June 21. As such the proposal is compliant with Clause 61 – Access to sunlight.

- Concern is raised in relation to the demolition of the fence that was approved under DA2009/1133.

Comment: Given that the works referred to in this submission are not part of the subject development application the submission is deemed not relevant and therefore is not required to be considered.

WLEP 2000

DESIRED FUTURE CHARACTER

The Middle Harbour Suburbs locality will remain characterised by detached-style housing in landscaped settings interspersed by a range of complementary and compatible uses. The land adjacent to Middle Harbour and occupied by the Mosman Rowing Club will be retained for low-scale recreational use sympathetic to its natural setting. The land occupied by the Killarney Heights Tennis Centre at Lot 841 DP 210006 and land occupied by the Killarney Heights Swim Centre at Lot 854 DP 210006 on Tralee Avenue and the land occupied by Belrose Bowling Club at Lot 2 DP 851739 on Forest Way, will continue to be used only as recreation facilities.

The south-west section of the Killarney Heights High School grounds contains bushland and rock outcrops: this area may be developed for housing. Development in this section will recognise the bushland outlook, views and privacy enjoyed from residences adjoining the northern and western boundaries of the site and ensure development reasonably maintains these qualities. The retention of existing landscaping is encouraged, where practical.

Future development will maintain the visual pattern and predominant scale of existing detached style housing in the locality. The streets will be characterised by landscaped front gardens and consistent front building setbacks. Unless exemptions are made to the density standard in this locality statement, any subdivision of land is to be consistent with the predominant pattern, size and configuration of existing allotments in the locality.

The relationship of the locality to the surrounding bushland will be reinforced by protecting and enhancing the spread of indigenous tree canopy and preserving the natural landscape, including rock

Warringah Council

outcrops, remnant bushland and natural watercourses. The use of materials that blend with the colours and textures of the natural landscape will be encouraged.

Development on hillsides or in the vicinity of ridgetops must integrate with the natural landscape and topography. Development on land which adjoins Middle Harbour shall have regard to the principles contained in Schedule 14.

The locality will continue to be served by the existing local retail centres in the areas shown on the map. Future development in these centres will be in accordance with the general principles of development control listed in clause 39.

Future development of the environmentally sensitive land shown cross-hatched on the map will be limited to one dwelling per allotment. Such dwelling will be constructed having regard to the constraints, potential instability, visual sensitivity and impact on the water quality of Middle Harbour.

Clause 12(3)(a) of WLEP 2000 requires the consent authority to consider Category 1 development against the locality's DFC statement. Notwithstanding Clause 12(3)(a) only requires the consideration of the DFC statement.

Accordingly, an assessment of consistency of the proposed development against the locality's DFC is provided hereunder:

The proposed development is considered to satisfy the applicable DFC statement for the reasons detailed hereunder:

- The proposal will maintain the detached style housing in landscaped settings
- The proposal will maintain the visual pattern and predominant scale of existing detached style housing
- The proposal will maintain landscaped gardens and consistent front setbacks
- The proposal will maintain the existing pattern of subdivision
- The proposal will maintain the relationship with existing surrounding bushland by protecting the spread of indigenous tree canopy
- The proposed materials and colour scheme will integrate with the natural landscape and topography.
