**RE: Mod2020/0490 - 6 Ross Street SEAFORTH NSW 2092**

I object to the application for the modification of the DA to allow for the acknowledged breach to the height limitations. The letter from Joshua Lang of JL Building Pty Ltd dated 16 October 2020 suggests that breach causes not loss of view. That is not correct. I noticed immediately the roof was constructed that our view had been compromised to an extent beyond that which would have been caused by a compliant build. It is the reason I asked for the height to be surveyed in the first place. I submit and request that the construction be required to comply with the original, unmodified, DA.
