

RESIDENTIAL DEVELOPMENT - DEVELOPMENT APPLICATION ASSESSMENT REPORT

DA No. DA2009/0464

Report Section

Assessment Officer: Maya Elnazer

Property Address: Lot 15 DP 26140, No. 17 Fuller Street COLLAROY PLATEAU NSW 2097

Proposal Description: Carport and a rear deck.

Plan Reference: Drawings 090415_GFPLAN, 090415_ELEV, 090416_SITE, 090416_SHAD, Survey dated 28/03/2009.

Rackground: This development application has been ledged subse

Background: This development application has been lodged subsequent to a Notice of Intention being issued by Council for unlawful building works being carried out without development consent.

The works consist of internal re-configuration, conversion of an existing garage into a habitable area, additional openings, new deck to living room/kitchen, and a single carport. It must be noted that works for the internal re-configuration have been substantially undertaken, whilst the remaining external works consisting of the deck and carport have not been constructed.

As retrospective consent cannot be granted for built works, the portion of works which have already been undertaken will require formalisation through application for a Building Certificate from Council. A special condition will be included in the recommendation which requires lodgement of a Building Certificate for the works already carried out prior to obtaining a Construction Certificate.

The remainder of the works will form part of the current development application, however for assessment purposes the proposed development (both built and unbuilt) will be wholly assessed within this report such that upon lodgement of a Building Certificate for the built works, approval may be granted accordingly.

SECTION 4 – APPLICATION DETERMINATION

Conclusion:

The site has been inspected and the application assessed having regard to the provisions of Section 79C of the Environmental Planning and Assessment Act, 1979, Warringah Local Environmental Plan 2000 and the relevant codes and policies of Council. The proposed carport and deck are considered satisfactory as assessed against the relevant controls.

In regards to the internal re-configuration, conversion of an existing garage into a habitable area, and additional openings which have been undertaken without development consent or a construction certificate, Council is unable to issue retrospective approval, however, can determine the application for the unbuilt portion of works (carport and deck), accept the plans and take no legal action. This is considered satisfactory with the works to proceed subject to the following conditions:

- Plans being retained for Councils records.
- The applicant being advised that a Building Certificate under Section 149D of the Environmental Planning and Assessment Act 1979 must be lodged to determine the structural adequacy of the unauthorised works.
- The applicant being advised that no further breaches of the Consent will be tolerated and should such occur Council will refer the matter to its Solicitors to take appropriate action.

RECOMMENDATION

- A. That Council as the consent authority grant development consent to Development Application 2009/0464 for carport and rear deck at Lot 15 DP 26140, No. 17 Fuller Street COLLAROY PLATEAU NSW 2097, subject to the conditions detailed within the associated notice of determination; and
- B. The applicant be advised that Council will permit the retention of the portion of unauthorised works completed without the benefit of development consent or a construction certificate and take no further action in relation to this matter subject to:
 - i. The applicant being advised that a Building Certificate under Section 149D of the Environmental Planning and Assessment Act 1979 must be lodged to determine the structural adequacy of the unauthorised portion of works.
 - ii. The applicant being advised that no further breaches of the Consent will be tolerated and should such occur Council will refer the matter to its Solicitors to take appropriate action.
