**RE: DA2019/1340 - 100 / 0 Meatworks Avenue OXFORD FALLS NSW 2100**

This submission MUST include safe infrastructure. This would mean footpaths and upgraded road access. Opening the road to Wakehurst Parkway through bushland rather than traffic drive past Oxford Falls Grammar is another option. Oxford Falls Road MUST have pedestrian walkways built. Parents and students walk on the road currently to parked cars. With increased traffic on this road and no footpaths it is only a matter of time before a young child is hit. Please note that Northern Beaches Council will be held publicly liable for the safety of student from OFGS during construction and release of this facility. If an accident were to occur then the public has every right to sue the council for unsafe development near a school zone. Keeping the status quo on Oxford Falls Road is not an option.
